

RP-350N

Polypropylene Random Copolymer

RP-350N is an injection molding certified prime copolymer designed for applications requiring excellent balance of good impact strength and high stiffness. *RP-350N* is formulated with Antistatic for protection against dust build-up, features Controlled Rheology for high quality straight flat surfaces of moldings, and advantages of Nucleation: faster mold set-up, reduced warpage and sink marks, freedom from stress whitening, improved tensiles and stiffness. *RP-350N* complies with FDA regulation 21CFR 177.1520 (a)(3)(i) / (c)3.1+3.2, and most international regulations concerning the use of Polypropylene in contact with food.
